- **Administrator** – Allows you to tailor the site.

Benefits of Intact iPortal

- **Ready-made** e-commerce solution — Get up and running in no time by simply tailoring the look and feel of the site to suit you.
- **'Dip your toe'** into the world of e-commerce without the need to invest in a new website.
- **Easy to use** by site administrator and customer and **less expensive** to implement.
- **Always open** — Intact iPortal provides an interface for customers to check stock and place orders outside of business hours giving you an edge over your competitors.
- **Gain deeper customer insights**—on their buying behaviour/shopping patterns and individual likes and dislikes.
- Provide **your** customers with the opportunity to **transact on-line** and carry out **account enquiries** at a time that suits them, without tying up your back office staff.
- **Your customer pricing is maintained** in the Intact accounting system and **iPortal** is linked directly to it.
- **Generate web-to-store footfall**—A good e-commerce solution will encourage prospective customers to browse online and then visit your actual store—e.g. ideal for business like furniture, tiles, hardware etc.
- The **customisable nature of the site** means you can tailor it to meet your own business needs and image.
- Your site is **hosted** by Intact Software
